

# NASP

NATIONAL ASSOCIATION OF  
SPECIALTY PHARMACY

Corporate Member of the Month

October 2020

**At Noble, patient satisfaction is at the core of everything that we do. Each of our employee owners believes that delivering 100% patient-centered care is instrumental to providing patients with the superior services that they need and deserve to help live healthier, full lives.**

**Located: Serving patients nationwide; licensed in all 50 states, plus Washington, DC.**

**Number of Employees: 85**

**Type of Business: 100 % employee-owned specialty pharmacy**

**How does your organization impact the specialty patient care journey and help put the *special* in specialty pharmacy?**

Focused 100% on delivering the highest quality pharmacy services to our patients, our employee owners work tirelessly to improve the patient journey and experience for each patient. Our dedicated care team provides each patient with attentive, personalized care to help them best manage their condition clinically, through our clinical management programs; as well as financially, through our benefits investigations and copay assistance programs.

**How does your organization define success?**

Success is defined through positive patient outcomes. These outcomes are achieved by ensuring that products are available for patients and are convenient to obtain through our benefits investigations and copay assistance programs. Ensuring that patients are able to get their medication when they need it, where they need it, and at the lowest out-of-pocket cost available promotes medication adherence. At Noble, we believe that adherence is a critical part of the treatment process and a tremendous marker for patient outcomes.

**What else would you like people to know about your organization?**

Noble Health Services is a 100% employee-owned, patient-focused specialty pharmacy with over a 96% patient satisfaction rate. Our dedicated team is wholly committed to our patients and believe that their individual and collective work impacts not only the patient, but has a direct impact on the company as well. This inspires each and every employee-owner to put their best foot forward each single day and provide every patient with the best care possible.

**Who and how should other NASP members contact you to learn more about your organization?**
