NATIONAL ASSOCIATION OF  
SPECIALTY PHARMACY

December 2021

**Company Name:** Blue Sky Specialty Pharmacy

**Located:** Headquartered in Mount Pleasant, SC with distribution sites in Daphne, Alabama and Charlotte, NC

**Number of Employees:** 99 Employees (10 Clinical Pharmacists, 4 Nurses, 65 Patient Navigators, 15 Field Service Reps)

**Type of Business:** Specialty Pharmacy with commercial and non-commercial dispensing capabilities

**What is your organization's mission and vision?**

Blue Sky Specialty Pharmacy was founded on a vision to re-imagine specialty pharmacy as we know it. Our goal is to create a meaningful impact on our practices and patients and to alleviate the administrative burden and headaches associated with specialty treatments so our practices and providers can focus on treating patients.

**How does your organization impact the specialty patient care journey and help put the special in specialty pharmacy?**

Blue Sky uses technology to enhance the pharmacy experience. Patients are better informed, better supported, and more empowered in every step of their healthcare journey. Providers and staff are released from the administrative strains; and payers and manufacturers benefit from knowledge of improved health outcomes.

**How does your organization define success?**

Blue Sky defines success by our industry leading quality of service and patient-centric approach that overcomes the barriers to access medications and the financial challenges for our patients. We believe caring about people and patients is the foundation of Blue Sky's success.

**What else would you like people to know about your organization?**

As a leading innovator in the specialty pharmacy industry and a back-to-back Inc 5000 recipient with double digit growth year over year since inception, the Top 25 SC Fastest Growing Company award as well as several other industry accolades have demonstrated our commitment to our patient first mentality. While we are immensely proud of our accomplishments, these could not be achieved without our dedicated Blue Sky team that act as guides to help all of our partners navigate the complexities of the modern healthcare system.
