CORPORATE MEMBER Spotlight

ParcelShield™

ParcelShield® provides predictive analytics and support services that reduce risk for shippers and improve patient or end-user satisfaction. ParcelShield has artificial intelligence and machine learning predictive models that provide real-time, carrier agnostic, deliverability risk-insight to prevent package distress before it happens. And when disruption and distress are unavoidable, ParcelShield deploys support services to track, communicate, and intercept critical packages to close the final mile, reduce loss, and deliver for the patient or end user.

Business type

ParcelShield is a technology company leveraging data and insights across carriers (FedEx, UPS, & USPS), helping healthcare providers (SP, Pharma manufactures) ensure that their package (medications) are delivered to the right location and on time.

Mission and vision

For Patients Who Need 100% On-Time Service.

ParcelShield is dedicated to deliver the package to the right location and on time. We Give 110%. When it comes to life-critical, time-sensitive medical shipments, there is a gap in traditional supply chains. The pharmacy and

healthcare industry need a solution they can rely on. Enter ParcelShield—the premier technology and service to protect against whatever life throws at your current carrier. No matter the elements, No matter the conditions, No matter the carrier. ParcelShield® is an added layer of protection on national and regional deliveries that truly need it, whether the circumstances are extreme or just a result of our normal day-to-day lives.

Additional information about ParcelShield

ParcelShield is the premier provider of patient medication protection. Specialty pharmacy typically encompasses high-cost, high-touch medication for complex diseases. For the patient, not receiving their medication on time can result in huge concerns. That's a lot to ask of any business, which is why ParcelShield is here to help. We understand that the patient comes first. No more missed commitments or package delays. No more reships and resends. No more product loss. No more NPS detractors. No more inefficiencies. No more lost business
