Biotechnology company

Mission and vision

Amgen strives to serve patients by transforming the promise of science and biotechnology into therapies that have the power to restore health or save lives. In everything we do, we aim to fulfill our mission to serve patients.

Additional information about Amgen

Amgen is committed to unlocking the potential of biology for patients suffering from serious illnesses by discovering, developing, manufacturing and delivering innovative human therapeutics. This approach begins by using tools like advanced human genetics to unravel the complexities of disease and understand the fundamentals of human biology.

Our belief is that innovative, highly differentiated medicines that provide large clinical benefits in addressing serious diseases are medicines that will not only help patients, but also will help reduce the social and economic burden of disease in society today. Amgen focuses on areas of high unmet medical need and leverages its expertise to strive for solutions that improve health outcomes and dramatically improve people's lives. A biotechnology innovator since 1980, Amgen has grown to be one of the world's leading independent biotechnology companies, has reached millions of patients around the world and is developing a pipeline of medicines with breakaway potential.

Contact information

NASP is pleased to announce our redesigned Spotlight: NASP Corporate Members of the Month program, expanding our focus from one corporate member each month to four – and featuring one each week. Why the change? NASP has experienced tremendous growth and membership diversification so this change is necessary to keep you up to date with all the incredible organizations who ARE NASP. Spotlight is designed to increase awareness about the amazing work and invaluable contributions of each of our corporate members and allow members to connect with each other.
