Additional information about D2 Solutions
D2 Solutions empowers healthcare leaders with a unique combination of SaaS solutions and deep consulting expertise. We bring pharmaceutical manufacturers, payers, pharmacies and support providers, and patients together. It's an approach we call, "The Point of Progress." That's both a promise and a call to action, empowering manufacturers to bring therapies to market faster and pharmacies to bring those therapies to the patients who need them. We lead manufacturers through the commercialization process, adding value to Trade & Distribution, Market Access & Reimbursement, and Patient Services. We also stand with pharmacies and hospital IDNs, providing the guidance they need to achieve compliance and licensure, solve regulatory challenges, and better connect with patients. Our proprietary technologies move clients even closer to their goals, finding that one point where everything moves forward.
