#inSPire2026

Welcome

A MESSAGE FROM THE PRESIDENT & CEO

Dear NASP Members and Conference Attendees,

It is an honor and a pleasure to officially welcome you to National Harbor, MD, and inSPire2026!

For years, the NASP Annual Meeting & Expo has been the place where the specialty pharmacy community comes together to learn from each other, share best practices, and make meaningful connections in a personalized, energized, and interactive setting. As participation, prestige, and influence have grown over the last several years, the meeting has evolved into much more than "just" another annual conference—it's become THE premier specialty pharmacy educational and networking event of the year and is unlike any other conference.

To keep pace with that evolution, we've retired the NASP Annual Meeting & Expo name and are excited to introduce a new identity—inSPire.

inSPire is the one week each year where **i**nnovation, **n**etworking, **S**pecialty **P**harmacy expertise, **i**nsights, **r**esearch, and **e**ducation come together to empower, educate, and connect us.

Although the conference name may have changed, our commitment to offering everything that attendees love and have come to expect, as well as new events, activities, and educational opportunities, has not. With riveting keynote addresses; thought-provoking conference workshops; five separate and extensive educational tracks including new leadership focused sessions; live CE credit; a full-scale exhibit hall; extensive Poster Hall; robust networking opportunities; the fabulous Women in Specialty Pharmacy Luncheon; our engaging Educate to Cultivate networking event; our first time attendee warm welcome program; our industry, scholarship, and poster awards; and so much more … inSPire2026 is indeed Specialty Pharmacy's Must Not Miss Event!

Conference Highlights Include

- Over 40 educational sessions and panel discussions organized into CORE+ specialty pharmacy tracks by subject area—clinical, operations, regulatory—designed to deliver real-world experience and +insights and help you focus on what is most important to you,
- Our Essential Elements of Specialty Pharmacy Practice Course, formerly the Certified Specialty Pharmacist (CSP) Exam Prep Course, and six conference workshops, including Accreditation, The Art of Infusion, Cell & Gene Therapy, Hospital/Health Systems Specialty Pharmacy, NextGen Intelligence, and Specialty Pharmacy Law,
- Live CE credits for pharmacists, pharmacy technicians, and nurses and CLE credits for legal professionals,
- Outstanding keynote presentations including:
    - Wednesday's empowering address, presented by leadership and resilience expert **Jay Abbasi**,
    - Thursday's inspiring address, presented by patient advocate **Jimi Olaghere**,
    - Thursday's Healthcare, Technology, and a New Tomorrow fireside chat with **Dr. Geeta Nayyar**,
- A bustling Exhibit Hall that features 100+ exhibitors, representing all specialty pharmacy industry stakeholders,
- A unique selection of wellness activities sprinkled throughout the day including breathwork, morning meditation, aromatherapy, and a little friendly competition with the Harbor Hustle Step Challenge,
- The ever-popular Women in Specialty Pharmacy luncheon, featuring NASP Member and Patient Advocate **Tina Valbh**,
- Our back-by-popular-demand Educate to Cultivate Networking Event where an interactive experience and something deliciously unexpected awaits,
- The latest research and trends and engaging author discussions in our interactive poster hall and live Q&A session,
- A celebration of excellence at the NASP Industry Awards Presentations,
- Recognition of the achievements and ambitions of the next generation at the NASP Ron Bookman Scholarship awards ceremony,
- Robust networking opportunities Tuesday and Wednesday evenings in the Exhibit Hall to mix, mingle, and meet and learn about all the services and products offered by our exhibitors,
- The Harbor Night Lights networking event, Thursday evening against the backdrop of the Potomac.

These are the highlights, but the conference has so much more to offer. Our diverse agenda provides many opportunities to learn about industry trends and innovations, the latest clinical information, and regulatory updates, earn much-needed LIVE CE credit, connect with old friends, and make new connections.

I want to express my heartfelt gratitude and appreciation to all who have worked tirelessly and diligently for months to make this conference a success:

- Our sponsors, exhibitors, and attendees: Without your generous support, inSPire2026 would not be possible.
- Our presenters and panelists: These are the nation's leading industry experts who have generously volunteered to share their experience and expertise with us.
- Our NASP members who graciously volunteer to serve as Presentation and Abstract Reviewers, Room Bosses, and Meeting Ambassadors.
- The NASP Executive Committee, Board of Directors and our nine NASP member-led committees: They volunteer countless hours and give generously their time, talents, and energy to ensure our conference is a resounding success.
- The inSPire2026 Planning Committee: This incredible team has been hard at work throughout the year to ensure we meet your conference needs and exceed your expectations.
- The NASP Membership and Ron Bookman Scholarship Committees who review and score all nominations for our Industry awards and scholarships.
- The NASP Education Committee workgroups including the Accreditation Education, inSPire Main Conference Programming, inSPire Abstract/Poster Program, The Art of Infusion, Essential Elements of Specialty Pharmacy Practice Course, Education Center, Hospital/Health Systems Education, Innovative & Advanced Specialty Topics, Patient Education & Resources workgroups, as well as the Legal Committee's Specialty Pharmacy Law Workshop planning workgroup and Technology Committee's NextGen Intelligence Workshop Planning Subcommittee for their tireless dedication and commitment to the development of best-in-class educational programming and an esteemed speaker faculty for the conference.

Throughout the conference, as we enhance our knowledge and invest in our future, it is essential to keep the patient at the center of all that we do. Through all the educational offerings and conference activities, our goal is to elevate the practice of specialty pharmacy. Our focus is and will always be ensuring patients have appropriate access to specialty medications in tandem with critical services, from the pharmacy of their choosing.

Thank you to each of you for joining us and sharing your time, experience, expertise, and energy with us and each other. When the conference ends, I hope everyone has a renewed sense of commitment, inspiration, and passion for this amazing industry. You, as industry leaders, have the vision, the knowledge, and the experience to help us shape our future. You are truly our greatest asset, and we simply could not do what we do without your support and partnership.

Experiences are more impactful when we share them together. Together we will make this a September to Remember!

No.	Title	Authors	Correspondence
OPR1-OR	Disease activity of patients with rheumatoid arthritis in an integrated health-system specialty pharmacy setting	**Sulisa Chow, Omnicell***; Anne Nelson, Omnicell; Sau Yeung, Omnicell	sulisa.chow@omnicell.com
OPR2-OR	Health system specialty pharmacy supports access and adherence for GLP-1 receptor agonists for patients with obesity	**Adaolisa Anaka, Shields Health Solutions***; Martha Stutsky, Shields Health Solutions; Chelsey Lindner, Shields Health Solutions; Shreevidya Periyasamy, Shields Health Solutions	aanaka@shieldsrx.com
OPR3-OR	Adalimumab biosimilar implementation among health system specialty pharmacies	**Viktoriya Avlasevich, University of Rochester Medical Center***; Katharine McCarthy, University of Rochester Medical Center; Katie Cruchelow, Vanderbilt Specialty Pharmacy; Morgan Petitte, UVA Health; Kelsi Conant, West Virginia University Medicine; Julie MacDougall, University of Vermont Medical Center; Karen Thomas, University of Illinois Chicago; Isabelle To, University of Illinois Chicago; Bruce Blaine, University of Rochester Statistics Dept	viktoriya_avlasevich@urmc.rochester.edu
OPR4-OR	The United States fertility benefit landscape for self-insured employers	**Richard A. Brook, Better Health Worldwide***; Ian A. Beren, WorkPartners; Eric M. Rosenberg, WorkPartners	rich@bh-ww.com
OPR5-EN	Real-world observations of home infusion therapy for gastrointestinal diseases through the use of patient-reported outcome measures	Timothy P. Walton, CSI Pharmacy; Elizabeth Neal, CSI Pharmacy; Carol Sauerbrun, CSI Pharmacy; **Jordan Bruns, CSI Pharmacy***; James Sheets, CSI Pharmacy; Randy Broyles, CSI Pharmacy; Edward O'Bryan, CSI Pharmacy	timothy.walton@csipharmacy.com
OPR6-RP	Implementation and preliminary outcomes of an integrated nutrition, emotional, and social support pilot program for oncology patients in a specialty pharmacy	**Zaritza Cajigas, Alivia Specialty Pharmacy***; Vivian Ferrer, Alivia Health Specialty Pharmacy; Carmen Colón, Alivia Health Specialty Pharmacy; Daniel Díaz, Alivia Health Specialty Pharmacy	zcajigas@aliviahealth.com
OPR7-RP	Real-world clinical outcomes with efgartigimod (vyvgart) and efgartigimod hyaluronidase (vyvgart hytrulo) in patients with generalized myasthenia gravis at an adult neuromuscular clinic: a single-center retrospective review	**Emily Chen, UVA Health***; Angela Holian, UVA Health; Morgan Petitte, UVA Health	ec4m@uvahealth.org
OPR8-EN	Evaluating the clinical impact of human immunodeficiency virus (HIV) providers' use of specialty pharmacy services within a health system	**Madeline Allen, Inova Health System***; Rohina Bayat, Inova Health System; Carol Luong, Inova Health System	madeline.allen@inova.org
OPR9-OR	Pharmacist-driven risk mitigation with IVIG and SCIG: patient 360 survey outcomes insights	**Amy Clarke, Immunoglobulin National Society***; Luba Sobolevsky, Immunoglobulin National Society; Benjamin Pratt, University of Central Oklahoma	amy.clarke@Ig-NS.org
OPR10-OR	Alternative funding programs: patient voices from the frontlines	**Katie Cruchelow, Vanderbilt Specialty Pharmacy***; Kemberlee R. Bonnet, Vanderbilt University; Libby C. Tunison, Vanderbilt University; Autumn D. Zuckerman, Vanderbilt Health; David G. Schlundt, Vanderbilt University	katie.cruchelow@vumc.org
OPR11-OR	Alternative funding programs: pharmacist voices in the fight for access	**Katie Cruchelow, Vanderbilt Specialty Pharmacy***; Kemberlee R. Bonnet, Vanderbilt University; Libby C. Tunison, Vanderbilt University; Autumn D. Zuckerman, Vanderbilt Health; David G. Schlundt, Vanderbilt University	katie.cruchelow@vumc.org
OPR12-OR	Impact on outcomes, adherence, and cost for PCSK9 inhibitors filled at health-system pharmacies	**Buzz Custer, Atrium Health Wake Forest Baptist***; Chandler Combs, Atrium Health Wake Forest Baptist; Matthew Nettesheim, Atrium Health Wake Forest Baptist; William Robinson, Atrium Health Wake Forest Baptist; B. Kyle Hansen, Atrium Health Wake Forest Baptist; Kathleen McDuffie, High Point University; Lena Xhelili, High Point University	buzz.custer@advocatehealth.org
OPR13-OR	Access, adherence, outcomes: a comprehensive real-world data analysis of tafamidis	David Gardner, Yale New Haven Health System; Bisni Narayanan, Yale New Haven Health System; Terri Sue Rubino, Yale New Haven Health System; **Tina Do, Yale New Haven Health System***; Vinay Sawant, Yale New Haven Health System	bisni.narayanan@ynhh.org

** Poster Presenter (author) ** Poster Presenter (non-author)*

No.	Title	Authors	Correspondence
OPR14-EN	Real world observations in patients receiving intravenous infliximab for sarcoidosis in the home infusion setting	Timothy P. Walton, CSI Pharmacy; **Elizabeth Duruz, CSI Pharmacy***; Jordan Bruns, CSI Pharmacy; Michele Way, CSI Pharmacy; Geri Adler, CSI Pharmacy; William Marsh, CSI Pharmacy; Jessica Giles, CSI Pharmacy; James Sheets, CSI Pharmacy; Randy Broyles, CSI Pharmacy; Edward O'Bryan, CSI Pharmacy	timothy.walton@csipharmacy.com
OPR15-OR	Impact of a specialty infusion pharmacy–led patient navigation program on social determinants of health	Justin Lindhorst, LUX Infusion; Terry Rice, LUX Infusion; Regina Valenzuela, LUX Infusion; **Kimberly Epps, BioMatrix Specialty Pharmacy***	justin.lindhorst@biomatrixsprx.com
OPR16-EN	Dual advanced therapy in inflammatory bowel disease: time to access and patient characteristics	**Jessica Fann, Vanderbilt Specialty Pharmacy***; Katie Cruchelow, Vanderbilt Specialty Pharmacy; Maxine Cork, Department of Pharmacy; Nicolas Gargurevich, Vanderbilt Health; Chelsea Renfro, Loopback Health	jessica.fann@vumc.org
OPR17-OR	Implementation of standardized clinical outcomes across multiple specialty pharmacy patient management program disease states and disease activity assessments	Anthony Donovan, Nebraska Medicine; **Carolyn Faylor, Nebraska Medicine***; Carrie Nixon, Nebraska Medicine; Marysa Heisterkamp, Nebraska Medicine; Victoria McCarthy, Nebraska Medicine; Louie Dunn, Nebraska Medicine; Randall Moore, Nebraska Medicine	andonovan@nebraskamed.com
OPR18-OR	From insight to impact: understanding and addressing social determinants of health in amyloidosis care through health system specialty pharmacy interventions	**Megan Fleischman, Froedtert ThedaCare Pharmacy Solutions***; Nick Howard, Alnylam Pharmaceuticals; Gina Engle, Alnylam Pharmaceuticals; Kama Thomas, Froedtert ThedaCare Health	kama.thomas@froedtert.com
OPR19-EN	Real world assessment of once-a-month dosing of lebrikizumab in commercial claims	Raj Chovatiya, Chicago Medical School, Rosalind Franklin University of Medicine and Science, North Chicago; William McCann, Allergy Partners; Lakshi Aldredge, VA Portland Healthcare System; Ray Gou, Eli Lilly and Company; Josephine Tran, Eli Lilly and Company; Alexandra Wallem, Eli Lilly and Company; Evangeline Pierce, Eli Lilly and Company; Louise DeLuca Carter, Eli Lilly and Company; Shivani Pandya, IQVIA; Chen Chi-Chang, IQVIA; April Armstrong, Division of Dermatology; **Wendi Gou, Eli Lilly and Company, Indianapolis, Indiana, USA****	sunanda.das@lilly.com

** Poster Presenter (author) ** Poster Presenter (non-author)*

No.	Title	Authors	Correspondence
OPR20-OR	Timing of pharmacist interventions across the medication journey within health-system specialty pharmacies	Casey Fitzpatrick, CPS Solutions; Ruhama Mengesha, Mercer University College of Pharmacy; Andrew Wash, CPS Solutions; Ana Lopez-Medina, CPS Solutions; **Brandon Hardin, CPS Solutions****	casey.fitzpatrick@cps.com
OPR21-RP	Multi-perspective cost and capacity impact analysis of transitioning from intravenous to subcutaneous ocrelizumab/hyaluronidase in an academic medical center multiple sclerosis clinic	**Angela Holian, UVA Health***; Linda Morris, UVA; Emily Chen, UVA Health; Morgan Petitte, UVA Health	arh6j@uvahealth.org
OPR22-EN	Addressing data gaps and early engagement preferences among healthcare decision-makers for cell and gene therapies	**Tasmina Hydery, Cencora***; Louis Cicchini, Cencora; Jenna Dale, Orphan Therapies; Shaila Yoshida, Cencora	tasmina.hydery@cencora.com
OPR23-OR	Trends in biosimilar formulary and contracting strategy from 2021 to 2026	**Tasmina Hydery, Cencora***; Shaila Yoshida, Cencora; Brian Biehn, Cencora; Dennis Nelson, Cencora	tasmina.hydery@cencora.com
OPR24-OR	The current state of biosimilar coverage and formulary management in the United States: results from a 2026 payer survey	**Tasmina Hydery, Cencora***; Shaila Yoshida, Cencora; Brian Biehn, Cencora; Dennis Nelson, Cencora	tasmina.hydery@cencora.com
OPR25-OR	Recombinant human growth hormone therapy clinical outcomes at an integrated health system specialty pharmacy	**Tamara Idlibi, Shields Health Solutions***; Joshua Hevener, Shields Health Solutions; Y. Caleb Chun, Shields Health Solutions; Shreevidya Periyasamy, Shields Health Solutions; Barb Petronzio, Phoenix Children's Hospital; Jonathan Newman, Phoenix Children's Hospital; Martha Stutsky, Shields Health Solutions	tidlibi@shieldsrx.com
OPR26-OR	Impact of multi step order transmittal on preventing specialty medication prescribing errors	**Holly Jahn, Deaconess Specialty Pharmacy***; Taylor Kissel, Deaconess Specialty Pharmacy	holly.jahn@deaconess.com
OPR27-OR	Accelerating access to acoramidis for patients with ATTR-CM: an effective pre-launch manufacturer–HSSP collaboration	**Kayla Johnson, Vanderbilt Specialty Pharmacy***; Autumn D. Zuckerman, Vanderbilt Health; Liana Hennum, BridgeBio Pharma; Tania Gregorian, BridgeBio Pharma; Elizabeth McNeer, Vanderbilt Health; Leena Choi, Vanderbilt University Medical Center; Katie Cruchelow, Vanderbilt Specialty Pharmacy	kayla.d.johnson@vumc.org
OPR28-OR	Impact of pharmacy services on patient's satisfaction and quality of life during ovarian stimulation protocols	**Rebecca Khaimova, Northwell Health***; Christopher Ho, Northwell Health; Rikita Shah, Northwell Health; Atisha Sharma, Northwell Health	rkhaimova2@northwell.edu
OPR29-EN	Dupilumab for eosinophilic esophagitis: characterizing symptoms and clinical outcomes in a real-world pediatric population	Charlotte Haskell, Lipscomb University College of Pharmacy; **Amanda Kibbons, Vanderbilt Specialty Pharmacy***; Autumn D. Zuckerman, Vanderbilt Health; Nicolas Gargurevich, Vanderbilt Health; Katie Cruchelow, Vanderbilt Specialty Pharmacy	amanda.m.kibbons@vumc.org
OPR30-OR	Discontinuation of GLP-1 and GLP-1/GIP receptor agonists among adults with type 2 diabetes, overweight or obesity	Yang-Yi Avia Shemesh, Shields Health Solutions; Kyle Wojciechowski, Shields Health Solutions; Shreevidya Periyasamy, Shields Health Solutions; **Sophy Levine, Shields Health Solutions***; Rachel Quinn, Shields Health Solutions; Sam Lee, NYU Langone Health; Martha Stutsky, Shields Health Solutions	sophylev@gmail.com
OPR31-OR	Assessing the impact of specialty pharmacists on access and adherence in ATTR cardiomyopathy: a quality improvement initiative	**Jiaying Li, MUSC Specialty Pharmacy***; Kristin Sigmon, MUSC Specialty Pharmacy; Jennifer Carter, MUSC Specialty Pharmacy	lji@musc.edu
OPR32-OR	Specialty pharmacy operational metrics association on patient clinical adherence outcomes	**Jessica Lynton, Optum Specialty Pharmacy***; Dave Barry, Optum; John Krech, Optum; Clarisse Purvis, Optum; Samantha St. Jacque, Optum Specialty Pharmacy; Kelly Mathews, OptumRx	Kelly.Mathews@optum.com

** Poster Presenter (author) ** Poster Presenter (non-author)*

No.	Title	Authors	Correspondence
OPR33-OR	Association of a pharmacy center of excellence with medical outcomes in patients with pulmonary disease	Lane Beckes, Humana Pharmacy Solutions; Megan Winebrenner, CenterWell Specialty Pharmacy; **Ryan McDade, CenterWell Specialty Pharmacy***; Kali Sassack, CenterWell Specialty Pharmacy; Elias Assaf, Humana Pharmacy Solutions	lbeckes@humana.com
OPR34-OR	Pharmacist interventions for preventing IVIG-associated headaches in the home infusion setting	**Sam Mihelich, Nufactor Specialty Pharmacy***; Amy Ehlers, Nufactor Specialty Pharmacy; Joe DiStefano, Nufactor Specialty Pharmacy	smihelich@nufactor.com
OPR35-EN	Evaluating the access process for patients transitioning from intravenous to subcutaneous biologic administration for inflammatory bowel disease	**Miranda Murray, Vanderbilt Specialty Pharmacy***; Taylor Kissel, Deaconess Specialty Pharmacy; Josh DeClercq, Vanderbilt Health; Autumn D Zuckerman, Vanderbilt Health	miranda.murray@vumc.org
OPR36-OR	Specialty pharmacist interventions at an integrated health system specialty pharmacy in patients with prostate cancer	**Bisni Narayanan, Yale New Haven Health System***; Terri Sue Rubino, Yale New Haven Health System; Tina Do, Yale New Haven Health System; Vinay Sawant, Yale New Haven Health System	bisni.narayanan@ynhh.org
OPR37-OR	Closing the adherence gap: a real-world pilot of supportive interventions in abemaciclib therapy	**Bisni Narayanan, Yale New Haven Health System***; Annette Hood, Smilow Cancer Hospital at Yale-New Haven; Carolyn Kelsey, Tennessee Oncology; Mahsa Talbott, Tennessee Oncology; Jack Taylor, Tennessee Oncology; Michele Riccardi, UConn Health; Johnetta Blakely, Tennessee Oncology; Stephen Ziter, NCODA; Sam Abdelghany, Yale-New Haven Hospital	bisni.narayanan@ynhh.org
OPR38-OR	Cost avoidance associated with pharmacist interventions in an integrated health-system specialty pharmacy model	**Anne Nelson, Omnicell***; Sulisa Chow, Omnicell; Sau Yeung, Omnicell	anne.nelson@omnicell.com
OPR39-EN	Foundational analysis of the impact of mechanical stress on molecular size distribution in immune globulin intravenous, human-stwk, 10%	**Stacey Ness, GC Biopharma USA***; Alan Huber, GC Biopharma USA; Suzanne Strasters, GC Biopharma USA; Laura Remy-Martin, GC Biopharma USA; Nari Ji, GC Biopharma	sness@gcbiopharmausa.com
OPR40-EN	Assessment of the aggregation profile of commercially available intravenous immunoglobulin products	**Stacey Ness, GC Biopharma USA***; Gil Bu Kang, GC Biopharma; Alan Huber, GC Biopharma USA; Suzanne Strasters, GC Biopharma USA; Laura Remy-Martin, GC Biopharma USA; Jihye Lee, GC Biopharma	sness@gcbiopharmausa.com
OPR41-OR	Insurance changes among patients taking specialty medications for inflammatory bowel disease: frequency and challenges	**Patrick Nichols, Vanderbilt Specialty Pharmacy***; Jordan Bailey, Lipscomb University College of Pharmacy; Nicolas Gargurevich, Vanderbilt Health; Kristen Whelchel, Vanderbilt Specialty Pharmacy; Leena Choi, Vanderbilt University Medical Center	patrick.j.nichols@vumc.org
OPR42-EN	Guselkumab pharmacokinetics and exposure-response relationships are consistent following intravenous versus subcutaneous induction in participants with Crohn's disease	Geert R. D'Haens, Department of Gastroenterology, Amsterdam University Medical Centers, Amsterdam, The Netherlands; Omoniyi J. Adedokun, Johnson & Johnson; Tae Eun Yang, Johnson & Johnson; Bruce E. Sands, Dr. Henry D Janowitz Division of Gastroenterology; Silvio Danese, IRCCS San Raffaele Hospital and Vita-Salute San Raffaele University; Nat A. Terry, Johnson & Johnson; Mobolaji Olurinde, Johnson & Johnson; Rian Van Rampelbergh, Johnson & Johnson; Marion L. Vetter, Johnson & Johnson; Tadakazu Hisamatsu, Department of Gastroenterology and Hepatology; Remo Panaccione, Inflammatory Bowel Disease Unit; **Madalyn Kuhlenberg, Johnson & Johnson****	LNolan8@ITS.JNJ.com
OPR43-EN	Pharmacokinetics and exposure-response relationships of guselkumab intravenous or subcutaneous induction in participants with ulcerative colitis	Laurent Peyrin-Biroulet, Northwestern Medicine Digestive Health Institute, Chicago, IL, USA; Zhenhua Xu, Johnson & Johnson; Jie Shao, Johnson & Johnson; Tadakazu Hisamatsu, Department of Gastroenterology and Hepatology; Millie Long, Division of Gastroenterology and Hepatology; Silvio Danese, IRCCS San Raffaele Hospital and Vita-Salute San Raffaele University; Matthew Germinaro, Johnson & Johnson; Marion L. Vetter, Johnson & Johnson; Shadi Yarandi, Johnson & Johnson; Thomas Baker, Johnson & Johnson; Jessica R. Allegretti, Brigham and Women's Hospital; David T. Rubin, University of Chicago Medicine Inflammatory Bowel Disease Centre; **Madalyn Kuhlenberg, Johnson & Johnson****	LNolan8@ITS.JNJ.com

On behalf of NASP, THANK YOU to our army of dedicated and passionate volunteers. We truly rely on the generosity and volunteer spirit of our members. A special thanks to the inSPire2026 planning team – Carmine DeNardo, Linda Stanko, Meeting Management Associates (MMA), University of Illinois at Chicago team, and the EXTRAORDINARY NASP team. I am extremely grateful for your dedication to NASP and our mission to elevate and promote the practice of specialty pharmacy. Without your help, none of this would be possible.

WITH MY HEARTFELT GRATITUDE & APPRECIATION

Speaker Ready Room Hours:

Tuesday, September 22	Wednesday, September 23	Thursday, September 24	Friday, September 25
7:00 AM–5:00 PM	7:00 AM–4:00 PM	7:00 AM–4:30 PM	9:00 AM–12:00 PM

Jointly provided by:
University of Illinois Chicago Retzky College of Pharmacy and National Association of Specialty Pharmacy (NASP)

UIC RETZKY COLLEGE OF PHARMACY
CHICAGO • ROCKFORD

Joint Accreditation Statement

Pharmacy Continuing Education

The University of Illinois Chicago Retzky College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. The non-accredited cosponsor for this conference is the National Association of Specialty Pharmacy (NASP). This conference has been assigned ACPE Universal Activity Numbers as listed on the NASP conference website. Attendance at the entire knowledge-based activity, completion of each session evaluation(s), and submission of NABP eProfile ID and date of birth (month/day) are prerequisites for receiving continuing pharmacy education credit(s) at each session. Upon completion of each session's online evaluation, credit(s) will be submitted to CPE Monitor™ within 30 days of the conference. Please contact pharmce@uic.edu if you do not see the activity information listed within 30 days. For more information and to set up your e-Profile visit: www.MyCPEmonitor.net.

Nursing Continuing Education

UIHealth is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation. The maximum number of hours for the main conference that can be awarded for this Continuing Nursing Education conference is 10.5 contact hours. Visit the NASP conference website for more information.

Pharmacist Continuing Education

The University of Illinois Chicago Retzky College of Pharmacy designates this continuing education conference for a maximum of 10.5 contact hours (1.05 CEUs) for the main conference and a maximum of 8 contact hours (0.8 CEUs) for the workshops for continuing pharmacy education credit(s).

Type of Activity: Knowledge

Pharmacy Technician Continuing Education

The University of Illinois Chicago Retzky College of Pharmacy designates this continuing education conference for a maximum of 10.5 contact hours (1.05 CEUs) for the main conference for continuing pharmacy education credit(s).

Type of Activity: Knowledge

For Pharmacists and Pharmacy Technicians:

Upon completion of each session online evaluation, your credit(s) will be submitted to CPE Monitor. Pharmacists/Pharmacy Technicians have up to three weeks (21 days) to complete the evaluation(s) and claim credit.

For information on how to claim CLE, please see the inSPire2026 website.

How to Claim CE Credit

To obtain your CE credit, please follow the steps below. **You will have 3 weeks (21 days) to complete the evaluation and claim CE credit.**

Pharmacists

1. Visit **https://go.uic.edu/NASP2026Pharmacist** and sign into your account.
    a. If you do not have an account, visit **https://pharmacyce.uic.edu/moodle** and select "Log in" in the top right corner of the page, then **"Create new account"** under "Is this your first time here?". Complete your profile information and proceed to select the session you would like to complete the evaluation and claim CE credit.
2. Select a session in which you would like to claim credit. Enter the access code in the box labeled "Session access code Enrollment key". **The code will be provided during each session at the conference. Please make note of each session code (codes are different for each session) as they will not be distributed later.**
    a. Note: All pharmacist sessions are located within the folder "NASP 2026 Conference Evaluations-Pharmacist".
3. Complete the session evaluation. After submitting your session evaluation, your CE will be automatically uploaded to CPE Monitor within 30 days.

Pharmacy Technicians

1. Visit **https://go.uic.edu/NASP2026PharmacyTechs** and sign into your account.
    a. If you do not have an account, visit **https://pharmacyce.uic.edu/moodle** and select "Log in" in the top right corner of the page, then "**Create new account**" under "Is this your first time here?". Complete your profile information and proceed to select the session you would like to complete the evaluation and claim CE credit.
2. Select a session in which you would like to claim credit. Enter the access code in the box labeled "Session access code Enrollment key". **The code will be provided during each session at the conference. Please make note of each session code (codes are different for each session) as they will not be distributed later.**
    a. Note: All pharmacy technician sessions are located within the folder "NASP 2026 Conference Evaluations-Pharmacy Technician".
3. Complete the session evaluation. After submitting your session evaluation, your CE will be automatically uploaded to CPE Monitor within 30 days.

Nurses

1. Visit **https://go.uic.edu/NASP2026nurse** and sign into your account.
2. Select a session in which you would like to claim credit. There is no access code needed.
3. Complete the session evaluation for each session. After submitting your session evaluation, your CNE credit certificate of completion will be emailed to you.

inSPire2026 Keynote Speakers

Jay Abbasi

Build Unshakable Resilience

Resilience & Leadership

Wednesday, September 23 | 8:00 AM

Location: Potomac Ballroom A-B

Jay Abbasi is a global keynote speaker, TEDx speaker, performance coach, and former Tesla leader on a mission to help professionals thrive under pressure without burning out. With a rare blend of corporate experience, science-backed strategy, and powerful storytelling, Jay delivers transformational messages that move audiences and drive real results.

While at Tesla, Jay was responsible for designing and leading national training programs that empowered over 1,000 employees. He saw firsthand the demands of fast-paced, high-growth environments, and learned how the right mindset, systems, and support can turn pressure into fuel. Since then, he has trained and coached leaders across industries at organizations like Google, Amazon, TikTok, Wells Fargo, Johnson & Johnson, RBC, Ford, and IBM, equipping them with practical tools to lead with resilience, clarity, and purpose.

His work sits at the intersection of performance psychology, mindfulness, leadership development, and human connection. A longtime student of neuroscience and behavior change, Jay translates complex research into engaging, actionable strategies that help people sharpen their focus, manage stress, navigate uncertainty, and create healthy, high-performing cultures. Whether he's working with Fortune 500 executives, tech teams, healthcare professionals, or emerging leaders, his message is clear: success isn't about avoiding challenges, it's about meeting them with energy and intention.

Jay's unique presentation style weaves science, real-world application, and spoken word storytelling to create an experience that's memorable and deeply human. He's been featured in Forbes Founder, Medium, Authority Magazine, and other media outlets for his work in well-being and workplace culture. He is also the host of the top-rated podcast Unstuck with Jay Abbasi, where he interviews trailblazers and shares insights that help listeners unlock personal and professional growth.

In addition to speaking, Jay offers executive coaching, team workshops, and leadership programs designed to help professionals grow without sacrificing their health, relationships, or values. His frameworks, such as The Fundamental 6, The ARIA Framework, and The 3 R's of Resilience, equip leaders with sustainable tools for clarity, adaptability, and purpose-driven impact.

Jay's story is shaped by personal loss and transformation. After losing his father to a sudden heart attack in 2014, he embarked on a journey to redefine success on his own terms, one rooted in meaning, resilience, and contribution. That journey now fuels everything he teaches.

Today, Jay brings his message to stages, boardrooms, and podcasts around the world. Whether through keynotes, coaching, or content, he helps audiences break free from burnout, reconnect with what matters, and rise unshaken through change.

Jimi Olaghere

Living the Breakthrough: A Sickle Cell Disease Patient's Journey from Trial Participant to Advocate and the Promise of Cell and Gene Therapies

Patient Advocacy

Thursday, September 24 | 8:15 AM

Location: Potomac Ballroom A

Jimi Olaghere is a Sickle Cell Disease (SCD) patient who has developed a keen interest in the advancements of Cell and Gene therapies since his transformative participation in the groundbreaking clinical trial. He is passionate about the positive impact these therapies can have on patients in need and has become a staunch advocate for increased accessibility of gene therapies for SCD patients worldwide.

Tina Valbh

Women in Specialty Pharmacy Luncheon
Thursday, September 24 | 12:00 PM
Location: Cherry Blossom Ballroom

Tina Valbh, RPh, is a pharmacist and specialty pharmacy strategist with over 25 years of experience at the intersection of drug access, patient services, and commercial execution. As Co-Founder and Managing Partner of PharmaKonnect, she leads a boutique advisory firm built on a simple premise: patients get to therapy when the systems designed around them actually work.

PharmaKonnect advises pharmaceutical manufacturers, specialty pharmacies, payors, and investors across four areas: patient journey mapping and gap analysis; SP data standards and QBR alignment; launch readiness and handoff failure consulting; and patient data intelligence, translating real patient community insights into structured real-world evidence that pharma cannot access through traditional channels.

Tina is a recognized thought leader in patient services and patient experience design, with a career spanning clinical protocol development, drug access and therapy adherence programs, specialty pharmacy operations, and FDA registration trials for Phase 2, 3, and 4 specialty products. She has also served as a Consultant Advisor to the FDA on specialty pharmacy practices and drug safety.

Then her own breast cancer diagnosis changed everything. The pharmacist who spent decades designing patient access programs sat down in an infusion chair and became the patient she had always built systems for. That experience did not slow her down. It sharpened every instinct she had already spent 25 years building.

In 2025, Tina co-founded Tina's Warriors, a 501(c)(3) nonprofit dedicated to ensuring no cancer patient navigates treatment alone. Through direct patient support, advocacy partnerships, and elevating the patient voice within industry decision-making, Tina's Warriors bridges the gap between what healthcare systems promise and what patients actually experience.

Her work sits at a convergence that few professionals in this industry can claim: deep operational expertise, firsthand patient experience, and a platform dedicated to closing the gaps between them. It is that rare combination of expertise, experience, and lived truth that makes Tina Valbh one of the most distinctive and trusted voices in specialty pharmacy today.

Dr. Geeta Nayyar

Healthcare, Technology, and a New Tomorrow
AI in Healthcare Fireside Chat
Thursday, September 24 | 4:30 PM
Location: Potomac Ballroom A

Dr. Geeta Nayyar, MD, MBA, is a leading physician-technologist, investor, and globally recognized Chief Medical Officer who is redefining the dialogue around innovation — especially the role of AI grounded in humanity, clinical insight, and trust. She is known for bringing a vital blend of medical knowledge and empathy into high-tech environments, helping companies ensure that advances in AI truly serve doctors and patients while strengthening business outcomes.

A former CMO for Salesforce and AT&T, Dr. G is an influential voice in health tech who uses her deep executive and clinical experience to build what she calls "the trust bridge" — the essential connection between technology, care delivery, and the lived patient experience. Her perspective has become indispensable for leaders navigating the converging worlds of health, well-being, and rapidly accelerating AI.

She is the Wall Street Journal and USA Today bestselling author of "Dead Wrong: Diagnosing and Treating Healthcare's Misinformation Illness," a groundbreaking book exposing the human cost of misinformation and making the case for truth, connection, and trust as the foundation of healthcare's digital future.

A highly sought-after media commentator, Dr. G has been featured on CNBC, CNN, FOX, and other major outlets, offering clarity and compassion on the most urgent issues in healthcare. She is an active investor and strategic advisor across the digital health and AI ecosystem, serving as an advisor to Transcarent, Zocdoc, RadiantGraph, Premier, Omada Health, and Modi Ventures, among others.

Dr. G serves on the boards of the American Telemedicine Association (ATA) and the Healthcare Financial Management Association (HFMA), and as a digital health advisor to the American Medical Association (AMA). Still a practicing rheumatologist and clinical educator, she brings the lived experience of real patients into every boardroom and innovation conversation. She earned her medical degree from the University of Miami Miller School of Medicine—admitted at age 17 through an accelerated program—and her MBA from The George Washington University School of Business.

inSPire2026 Special Events

Seeking to connect with old friends and foster new business relationships? Don't miss our special events throughout the conference!

First-Time Attendee Welcome Program

Tuesday, September 22 | 7:30 PM-8:00 PM
Location: Prince George's Exhibit Hall D

We appreciate that the conference experience can be a bit overwhelming, especially for those who haven't attended before, so we offer our first-time attendees two opportunities to learn all about inSPire2026. First, we invite all first-time attendees to review what to see and do and what not to miss during a pre-conference webinar in August, available live and on-demand. Then first-time attendees are invited to join us in person on Tuesday, September 22, immediately following the National Harbor's Happiest Hour Reception in the Exhibit Hall for a Meet & Greet and special gift.

Certified Specialty Pharmacist (CSP) Happy Hour

Wednesday, September 23 | 7:00 PM-8:00 PM
Location: Cherry Blossom Lobby

All Certified Specialty Pharmacists are invited to this year's CSP Happy Hour! While attending inSPire2026, we invite you to this unique opportunity to connect with others who have earned the prestigious credential. The Specialty Pharmacy Certification Board (SPCB) hosts this event; there is no additional fee to attend.

Women in Specialty Pharmacy Luncheon*

Thursday, September 24 | 12:00 PM-2:00 PM
Location: Cherry Blossom Ballroom

**Additional fee. Pre-registration required. Please see the registration desk for more information.*

Keynote Presenter: Tina Valbh

The professional connections and friendships we make help to support us as we move through the phases of our careers and lives. Be surrounded by the encouragement and leadership of an incredible community of professionals during our popular luncheon. All attendees are welcome.

Educate to Cultivate Networking Event*

Thursday, September 24 | 12:00 PM–2:00 PM
Location: Eastern Shore 1-2

**Additional fee and pre-registration required. Please see the registration desk for more information.*

For those looking for a unique opportunity to connect with old friends and foster new business relationships while learning something new, join us for lunch and be captivated by this educational and entertaining experience. All attendees are welcome.

Tina's Warriors Hope Event for Cancer

Thursday, September 24 | 2:00 PM-5:00 PM
Location: Cherry Blossom Lobby

Tina's Warriors exists because no one should face cancer feeling unseen, unsupported, or alone.

Join the specialty pharmacy community for an afternoon of purpose as we come together to create care packages for people going through cancer. Each package is created to bring comfort, practical support, and a reminder to recipients that someone is thinking of them during one of the hardest seasons of their life.

Guests will also have the opportunity to write a personal note of encouragement to include in each package. A few heartfelt words can reach someone at exactly the moment they need them most.

This is more than a packing event. It is a chance to stand with patients, serve with intention, and become part of a growing movement that turns compassion into action.

One package. One message. One person reminded they are not alone.

Harbor Night Lights

Thursday, September 24 | 7:00 PM-10:00 PM
Location: Atrium

Join us for an unforgettable evening of networking, entertainment, handcrafted cocktails, and culinary delights set against a backdrop of stunning harbor views and summer breezes! Enjoy Chesapeake-style dishes, signature cocktails, interactive activities, sweet treats, and a premium whiskey tasting experience designed for both casual sippers and true enthusiasts. Whether you're here to make meaningful connections, unwind after a long week, or simply enjoy a night out with friends and colleagues, this event is the perfect mix of business and fun.

Come ready to mix, mingle, sip, and celebrate all that makes specialty pharmacy SPECIAL

The Harbor Night Lights event is included with all main conference and main conference + workshop combo registrations. Guest tickets may be purchased at registration for an additional fee.

Wellness Activities

Location: Camellia 4

Appreciating how hectic the conference days are, we have sprinkled a series of unique activities throughout the day to help you relax and recharge. Our wellness activities keep you engaged and focused. Please refer to the mobile app for the most current schedule, including dates and times.

Harbor Hustle Step Challenge!

Tuesday, September 22 - Friday, September 25
Refer to the mobile app for specific challenges and actions.

inSPire2026 activities have been centralized within the Gaylord National, but as we all know conferences inherently involve a lot of walking. So why not have a little fun and join this friendly competition?? Make the most of your steps, earn points for the chance to win some fabulous prizes while taking advantage of all the conference has to offer!

Exhibitor	Booth	Description
Accelerate Pharmacy Solutions	117	Accelerate Pharmacy Solutions helps health systems improve patient outcomes, expand medication access, and strengthen financial performance. Our scalable solutions and pharmacy expertise streamline operations, optimize resources, and support sustainable growth across the care journey.
Accreditation Commission for Health Care	606	Accreditation Commission for Health Care (ACHC) is a nonprofit with over 35 years of experience promoting safe, quality patient care. As a national leader in accreditation, ACHC is known for providing value, integrity, and the industry's best customer service.
AeroSafe Global	500	AeroSafe Global ensures the safe delivery of temperature-sensitive therapies directly to patients. Purpose-built for specialty pharmacy DTP programs, our "Cold Chain as a Service" (CCaaS) leverages validated packaging and active delivery management to guarantee therapy continuity.
Alivia Specialty Pharmacy	522	
Altor ALTOR	226	
Amber Specialty Pharmacy	203	Driving innovation, delivering quality care and sharing deep expertise for powerful results for our patients.
Anovo	107	Every orphan product requires its own solution, and only Anovo is built from the ground up to deliver optimal results. Our business is dedicated to supporting orphan products as the exclusive provider offering program management, 3PL, Specialty Pharmacy, Patient Services, and Early Access Programs.
argenx	123	argenx is an immunology innovation company developing precision therapies to help improve the lives of people suffering from severe autoimmune diseases. Discover more at www.argenx.com.
Asembia	602	Dedicated to optimizing and improving the experiences of patients everywhere. Our mission at Asembia is to effectively connect and strengthen all facets of the pharmaceutical channel by transforming ideas into meaningful innovation that optimizes the experiences of patients everywhere.
Asepha	328	Asepha automates pharmacy operations to accelerate medication access.
ASG Pharmacy	200	ASG Pharmacy is built exclusively for the pharmacy sector. We supply top-tier clinical and administrative talent to ensure uninterrupted patient care and operational efficiency. Backed by two decades of hands-on pharmacy experience, we don't just fill seats. We understand the distinct operational demands of your facility. We are the trusted partner for nationwide pharmacies seeking a high-quality, reliable workforce.
ATS Life Sciences Systems ATS LIFE SCIENCES SYSTEMS	428	ATS Life Sciences Systems provides high-quality, high-value automation solutions to manufacturers of medical technology and pharmaceutical products where regulatory compliance is critical. We are dedicated to assisting our customers in improving quality of life for people around the world. When there is no room for error, and product failure is not an option, leading life sciences companies trust us to resolve their production challenges.
Barclay Damon	619	
BD / BD Parata	524	
Biologics by McKesson	303	
BridgeBio Pharma, Inc.	128	
Brightree	706	
Calmoseptine, Inc.	101	
Cardinal Health	326	Cardinal Health connects manufacturers and innovators to providers and patients. We work to be healthcare's most trusted partner, safely and efficiently providing customers and patients with the products and solutions they need, as we fulfill our mission to improve the lives of people every day.

Exhibitor	Booth	Description
CarepathRx	306	
Chetu Inc	222	Chetu is a global software development company with 26+ years of experience. We help specialty pharmacies modernize operations, automate complex workflows, and improve patient outcomes, through secure, HIPAA-compliant, and AI-powered software built specifically for the demands of this industry.
Cinnamon Health	607	Cinnamon is a market-driven, health-system-first technology partner with three key features: Prior Authorization with AI Automation (Pharmacy & Medical Benefit), Patient Access & Financial Assistance, and Patient Education and Follow-up.
CitusHealth	710	Home and specialty infusion care depends on timing, trust, and teamwork. CitusHealth brings these together in a purpose-built collaboration platform that replaces fragmented processes with clarity and coordination.
Claritas Rx	702	Claritas Rx helps rare disease and specialty brands remove the barriers that keep patients from accessing and staying on the treatment. By uniting the most complete view of the patient journey with purpose-built technologies, we predict and resolve access challenges before they disrupt care.
Clearway Health	302	
CMP Pharma	112	CMP Pharma is a specialty pharmaceutical company that develops and manufactures a portfolio of high value topical and liquid products that address critical needs for niche markets within the pharmaceutical and life science industries.
Cold Chain Technologies	422	Cold Chain Technologies' expert team can help you build best practices for a compliant cold chain and guide you through the accreditation process. CCT Rx Secure delivers added assurance for our ISTA 7E qualified solutions by providing pack-out guidance and assessing risks due to extreme weather.
CompassRx	718	
Coral AI	118	Coral automates healthcare operations for providers nationwide, covering intake, prior auth, benefits verification, and EHR data entry. 1.5M+ workflows monthly across 50+ deployments. 99.3% extraction accuracy, ~85% auto-PA success rate, and 5-min avg staff time per patient.
Coral Connect	601	Coral Connect is a technology-enabled pharmacy services platform that unifies procurement, operations, and drug-cost intelligence.
CoverMyMeds	204	A healthcare technology company that automates prior authorizations, reduces prescription abandonment, and connects providers, pharmacies, and payers. Key network elements include electronic health record (EHR) systems, retail pharmacies, and medical providers. It operates as a subsidiary of the McKesson Corporation
CPS	423	Founded over 50 years ago, CPS Solutions, LLC ("CPS") is one of the nation's leading providers of specialty pharmacy and specialty pharmacy care management software, employing over 2,500 pharmacy professionals and servicing over 800 healthcare facilities nationwide.
CuraScript SD	110	
CVS Specialty	727	
D2 Solutions	116	D2 Solutions is a multifaceted industry & specialty pharmacy partner offering Pharmacist-built & supported Accreditation, Licensing, and Regulatory Management solutions, including D2's ComplySuite Platform boasting a 100% accreditation success rate for users.
Dane Street	127	
Develop Health	122	Develop Health automates PAs for specialty pharmacies, working every script from reject code through determination. We close the loop with providers in order to raise fill and approval rates, and speed turnaround: the metrics that matter most in manufacturer negotiations.
Duane Morris LLP	507	The Duane Morris Pharmacy Litigation Group consists of litigators, healthcare regulatory and corporate attorneys who have significant experience in the many segments of the industry, including retail, closed door, mail service, internet, infusion, and institutional pharmacies.
Dutton Supply	429	Dutton Supply delivers sustainable, high-performance packaging solutions for temperature-sensitive and regulated supply chains. We help customers protect their products while improving efficiency and reducing environmental impact.

Exhibitor	Booth	Description
EMED Technologies	104	
Fairview Pharmacy Solutions	202	Fairview Pharmacy Solutions was built inside one of the nation's leading health system pharmacy enterprises. We bring real-world experience building and operating pharmacy businesses at scale—where optimal patient care and financial performance must work together.
FDB (First Databank, Inc.)	717	FDB delivers clinically robust, workflow-integrated drug knowledge that is patient-specific and actionable. Our drug databases and medication decision support solutions help healthcare organizations make more precise medication decisions and improve safety, operations, and outcomes.
Foundation Health	210	Foundation Health is an AI-powered digital health company that automates pharmacy workflows, including prior authorizations, refill management, and patient communications, embedding directly into health system EHRs to reduce administrative burden and improve patient access to therapy.
FountainRx Specialty Pharmacy	322	FountainRx is an independently-owned specialty pharmacy serving patients with complex, chronic conditions nationwide, providing specialty medication fulfillment, financial assistance, and prior authorization support to simplify treatment and improve patient outcomes.
Frier Levitt	406	Frier Levitt is a national law firm exclusively focused on pharmacy, healthcare, and life sciences. The firm provides regulatory, transactional, and litigation counsel to industry stakeholders including specialty pharmacies, healthcare providers, and life sciences companies.
Gilead Sciences	103	
Grip	726	Grip is a technology and logistics company specializing in direct-to-patient pharmaceutical shipping. Our AI-driven OMS optimizes every shipping decision in real time for reliability, efficiency, and speed. Built for specialty pharmacies, e-pharmacies, and direct-to-patient operations.
HealthWell Foundation	405	The HealthWell Foundation is a nationally recognized independent non-profit organization that offers a financial lifeline to underinsured Americans who struggle to afford critical medical treatments. Learn more: www.HealthWellFoundation.org.
Hercules	217	
Immunoglobulin National Society	505	Ig National Society is a professional organization dedicated to the advancement of Ig Therapy practice across clinical indications and areas of practice.
InfuseTrack	627	InfuseTrack is a software solution designed to bring clarity, control, and confidence to equipment management for infusion centers, specialty pharmacies, home infusion providers, and hospital outpatient departments.
Inovalon	211	For pharmacy organizations, Inovalon delivers software solutions that drive efficiency and patient adherence from referral receipt to delivery to ongoing care, bettering patient outcomes, improving time to therapy, and reducing cost to fill and total cost of care.
Johnson & Johnson	427	At Johnson & Johnson, we believe health is everything. Our strength in healthcare innovation empowers us to build a world where complex diseases are prevented, treated, and cured, where treatments are smarter and less invasive, and solutions are personal. Learn more at https://www.jnj.com/
Kedrion Biopharma	722	Kedrion Biopharma is a global biopharmaceutical company that develops and manufactures plasma-derived therapies to treat and prevent rare and life-threatening diseases.
Kelly	527	Kelly helps companies recruit and manage skilled workers and helps job seekers find great work. Since 1946, we have become experts in the many industries and local and global markets we serve. Our suite of outsourcing and consulting solutions ensures companies have the people they need, when and where they are needed most. Headquartered in Troy, Michigan, we empower businesses and individuals to access limitless opportunities in industries such as life science, engineering, technology, education, manufacturing, retail, finance, and energy. Learn more at kellyservices.com.
Keycentrix	705	
KeySource	523	KeySource is a wholesale supplier of generic prescription medications to thousands of owners of independent pharmacies, long-term care organizations and specialty pharmacies across the USA. KeySource provides personalized, one-on-one service to help its customers support their communities.

Exhibitor	Booth	Description
KODIAKOOLER	212	
Lake Rose	704	
Lamar Health	403	
Loopback Health	729	
Mandolin	600	Mandolin automates the operations behind specialty therapies. Our AI agents work within existing EHR and pharmacy workflows to automate the manual, time-intensive tasks that slow down patient access: referral intake, benefits verification, medical policy review, prior authorization, and more.
MannKind	714	
Medesto Health	616	Medesto is the clinical layer that sits above the specialty pharmacy's PMS, connecting every player across the healthcare ecosystem and automating tailored outreach to every patient, so data moves freely and every stakeholder acts on the same intelligence.
MedPro Systems	300	MedPro Systems empowers Life Sciences companies to streamline compliance and operations with MedProID, the industry's most accurate, comprehensive and trusted source of HCP and HCO data. Our platform delivers data directly from authoritative sources and integrates seamlessly with your system and Pharmacy Software vendors.
MedRx Logistics	224	MedRx Logistics specializes in reliable, time-sensitive delivery solutions tailored for the healthcare industry. Our services, spanning the continental United States, are designed to meet the critical needs of medical providers. We provide a range of delivery options including next-day scheduled service, custom batch deliveries, and immediate hot shots. With a focus on accuracy and exceptional customer support, we are dedicated to ensuring a seamless delivery experience for both pharmacies and their patients.
Menarini Stemline	716	Stemline Therapeutics, a part of the Menarini Group, is focused on the development and commercialization of novel oncology therapeutics.
Morris & Dickson	712	Morris & Dickson is the industry's largest independent full-line and specialty pharmaceutical distributor with a singular focus of reliable, next-day delivery of drugs and related products to health systems, independent pharmacies, specialty pharmacies, and alternative care facilities.
National Association of Boards of Pharmacy (NABP)	223	The National Association of Boards of Pharmacy® (NABP®) is an expert provider of accreditation services - including specialty - regulatory compliance inspections, pharmacist licensure transfer, and competency assessment programs.
National Association of Specialty Pharmacy	412	
NHIA	114	NHIA is the leading organization representing providers of medically necessary infusion therapies in alternate sites, along with the manufacturers, suppliers, and service companies that support them. NHIA advances the industry through education, advocacy, information, and resources to help patients.
NICA Accreditation	327	The NICA Accreditation Program aims to improve consistency in quality and safety across infusion enterprises, protect patients by providing objective measurement of quality infusion care, and promote awareness by highlighting Centers of Excellence to payers, patients, and referring prescribers.
Noble International (Aptar Pharma, Inc)	426	
Nordic Cold Chain Solutions	325	
Omnicell	511	Omnicell's Unified Care Delivery Model—integrating specialty pharmacy operations, 340B TPA administration, and PSAO payor network services—is designed to help maximize clinical, operational, and financial outcomes for specialty pharmacy. See how at omnicell.com/specialty-pharmacy.

Exhibitor	Booth	Description
Onco360 Oncology Pharmacy	323	Onco360 is the only specialty pharmacy 100% dedicated to oncology. We are advancing the continuum of care through patient advocacy, clinical excellence, personalized support, and cutting-edge technology services nationally through our network of URAC-, ACHC-, and NABP-accredited pharmacies.
PaceMD	227	
PANTHERx Rare	329	PANTHERx Rare Pharmacy makes rare disease care more personal and less overwhelming, focusing relentlessly on each patient and each therapy. Since its founding in a garage in Pittsburgh, PA in 2011, PANTHERx has grown into the largest independent rare pharmacy in the U.S.
ParcelShield Holdings, LLC	125	ParcelShield® is the AI-powered shipment intelligence platform for specialty pharmacy and healthcare logistics. For nearly 20 years, it has combined predictive intelligence, real-time carrier monitoring, and active intervention to ensure critical healthcare deliveries reach patients on time.
Patient Advocate Foundation	105	Patient Advocate Foundation, following its March 2026 merger with PAN Foundation, is the nation's most comprehensive nonprofit helping patients navigate, access, and afford care while improving the healthcare system for those who need it most. We provide trusted resources and support.
Pelton Shepherd Industries	529	For over 70 years Pelton Shepherd's sole passion is to offer the most innovative, market-leading refrigerants to meet any and all gel pack needs. From the most sustainable gel pack available to the most cost-effective gel pack in the industry, we have the most comprehensive and innovative refrigerant solutions on the market.
Pfizer	517	At Pfizer, we apply science and our global resources to bring therapies to people that extend and significantly improve their lives. We strive to set the standard for quality, safety and value in the discovery, development, and manufacture of health care products, including innovative medicines and vaccines. Every day, Pfizer colleagues work across developed and emerging markets to advance wellness, prevention, treatments, and cures that challenge the most feared diseases of our time.
Phox Health	528	
Plenful	102	Plenful is the leading AI workflow automation platform for pharmacy teams, built to automate the most labor-intensive and disparate workflows. Plenful streamlines a diverse range of complex processes by powering end-to-end solutions including 340B Compliance and Optimization, Intake Authorization, and more. Plenful combines LLMs fine-tuned for healthcare with robust rules-based engines in an AI platform purpose-built for operational teams.
Prochant	129	Prochant delivers end-to-end RCM solutions for home-based care providers across HME, infusion, specialty pharmacy and home health and hospice. It combines intelligent workflow management technology and infusion expertise to improve collections, boost revenue, reduce costs and manage risk.
Prudential Cleanroom Services	307	
Rx2Go	719	
RxToolKit	624	RxToolKit's software solutions, including pharmacist curated medication guides, increase patient safety, reduce medication errors, enhance clinical competencies, and improve clinical outcomes.
Salix Pharmaceuticals	201	
Scriptly	724	Scriptly is a cloud-native pharmacy management platform built for specialty pharmacies. Automate complex workflows, reduce labor, increase prescription throughput, and seamlessly integrate with your technology ecosystem through flexible APIs and configurable automation.
ScriptPro	603	ScriptPro delivers operational, financial, and clinical solutions backed by 30+ years of pharmacy management expertise. Our technology automates vial filling, inventory, payments, eligibility, reimbursement, 340B, and more, freeing pharmacists to focus on patient care.

Exhibitor	Booth	Description
Shields Health Solutions	402	Shields Health Solutions (Shields) is the premier specialty pharmacy accelerator in the country.
Shipment Trackers, Inc.	715	
SmartStory Technologies	526	SmartStory partners with specialty pharmacies, health plans and PBMs to strengthen patient support through secure, effective digital engagement. Our platform delivers personalized communications via text or email to SmartPages and secure chat. We help organizations simplify onboarding, improve medication adherence, support timely patient assessments, and enhance care management.
Specialty Pharmacy Certification Board (SPCB)	611	The mission of the Specialty Pharmacy Certification Board (SPCB) is to provide independent, verifiable evidence of proficiency in specialty pharmacy practice through nationally recognized, accredited, and rigorous certification programs.
Specialty Pharmacy Continuum	623	Specialty Pharmacy Continuum (SPC) provides essential clinical news and business information to specialty pharmacists, home infusion practitioners and managed care organizations, including payors. SPC covers challenging disease states, digital health and other key specialty pharmacy trends.
Sphinx Strategies, LLC	126	
TailorMed	124	
TempAid - Cold Chain Packaging	731	
TemperPack	407	TemperPack solves tough packaging problems with materials science, engineering, and sustainability, displacing legacy plastics with advanced alternatives since 2015. Top life science leaders like Cytiva, New England Biolabs, and Elanco trust us to protect frozen, 2-8°C, and CRT shipments globally.
Tennr	615	
Thermal Shipping Solutions	626	Thermal Shipping Solutions provides engineered cold chain packaging solutions nationally for direct-to-patient and specialty pharmacy shipments. The company designs and supplies validated insulated mailers, box liners, and thermal packaging systems that help protect temperature-sensitive medications.
Thermogard	106	Thermogard is a global temperature-controlled packaging specialist with 25+ years' experience. Through its Listen, Design, Deliver approach, Thermogard engineers sustainable, fit-for-purpose solutions for regulated supply chains across North America, Europe and Asia Pacific.
ThermoSafe	703	ThermoSafe® protects what matters most - patients and the medicines they rely on. As a global leader in temperature assurance technologies, we deliver high performance, sustainable cold chain solutions for life sciences, pharmaceutical, biotech, and specialty pharmacy organizations.
Tina's Warriors	613	
Trella Health	225	
UCLA Health	207	UCLA Health defines greatness by the quality of the patient experience we are able to deliver. Each and every time. To every single patient. If that's where your ambitions lie, UCLA is where you belong. We offer unequaled challenges and opportunities to further your education, training and career.
Universal Software Solutions, Inc.	605	Universal Software Solutions delivers a unified specialty pharmacy platform that streamlines dispensing, intake, patient management, patient assistance programs, clinical workflows, inventory, billing, revenue cycle management, and reporting to improve efficiency, compliance, and patient outcomes.
URAC	628	URAC is the premier accreditor of specialty pharmacies nationwide. URAC-accredited organizations demonstrate a commitment to quality, trust and innovation in patient care.
UVA Health	503	UVA Health is a world-class Magnet Recognized academic medical center and health system with a level 1 trauma center. 2023-2024 U.S. News & World Report "Best Hospitals" guide rates UVA Health University Medical Center "High Performing" in 5 adult specialties and 14 conditions/procedures.

Exhibitor	Booth	Description
Vanscoy Rare Pharmacy	622	Vanscoy Rare Pharmacy is an independent, pharmacist-led company built exclusively for rare and ultra-rare diseases. Combining concierge-level patient care, deep launch expertise, and proprietary technology, we help manufacturers, providers, and patients achieve better outcomes.
Veritiv	629	
Visante	502	Visante helps health systems transform pharmacy into a strategic advantage. We optimize specialty pharmacy, infusion, 340B, medication access, revenue cycle, informatics, and supply chain to improve patient outcomes, strengthen financial performance, and drive sustainable growth.
VPL	506	VPLRx is a single platform to handle the pharmacy logistics behind every prescription delivery—so you can reach more patients and grow revenue. Single source of truth. Real-time tracking. Shipment spend insights. Audit-ready reporting. Reduce inbound calls. Ship with confidence. Getvpl.com
VytlOne	229	
WeInfuse	625	WeInfuse is the premier infusion workflow and software platform offering powerful, intuitive features for infusion centers and home infusion & specialty pharmacies. The software features an end-to-end solution, including prior authorizations, billing & claims, scheduling, inventory, and more.
WellSky	111	WellSky is a technology company leading the movement for intelligent, coordinated care and delivering next-generation software, analytics, and services that improve collaboration, enhance care coordination, and power better outcomes at lower costs.
XiFin, Inc.	728	XiFin helps specialty pharmacies accelerate patient access, improve reimbursement, and optimize financial performance. Our technology leverages automation, analytics, and AI to streamline complex financial workflows.
Zebra Technologies	501	Zebra empowers organizations to thrive by making front-line workers and assets visible, connected and fully optimized. With an award-winning portfolio of hardware, software, environmental sensors, services and solutions supply chains, Zebra helps customers and patients sense, analyze and act.

Product Theater

Date	Time (CT)	Program Title	Faculty	Location
Thursday, September 24	12:00 PM-1:00 PM	Changing the Trajectory of ATTR-CM: The Power of Early Action and Pharmacy Leadership	Drs. Craig Beavers of Baptist Health, PharmD, FACC, FAHA, FCCP, BCCP, BCPS-AQ Cardiology, CACP & Kristel Geyer, PharmD, BCOP, BCPS of Cleveland Clinic	Chesapeake 9

Join us for an engaging lunchtime session where clinical experts will explore the evolving role of pharmacy in identifying and managing a progressive and often underdiagnosed form of heart failure. Through real-world examples and practical discussion, attendees will gain actionable insights on: Recognizing the disease state and the critical importance of early suspicion, diagnosis, and treatment initiation Leveraging the pharmacy team's unique position to support early identification and optimize therapeutic management Navigating patient access and affordability, including the hand-offs between clinical and specialty pharmacy Understanding available patient support resources to help patients stay on therapy. This session is designed for pharmacists seeking to deepen their clinical impact in ATTR-CM care. Lunch is included.

Sponsored by Pfizer

Amerita

Your Infusion Advocate

Amerita provides patients with the infusion care they need, where they need it, from advocates they deserve. Our 34 pharmacies across 20 states provide local acute care in the communities we serve, as well as nation-wide specialty infusion care.

About NASP

The National Association of Specialty Pharmacy (NASP) is a 501(c)(6) non-profit trade association representing all specialty pharmacy industry stakeholders. Founded in 2012, the mission of NASP is to empower specialty pharmacy stakeholders to advance the standard of patient care. NASP develops and promotes continuing professional education and certification of specialty pharmacists, and advocates for public policies that ensure patients have appropriate access to specialty medications in tandem with critical services. With more than 200 corporate members and more than 3,500 total members, NASP is unifying the voices of specialty pharmacy.

Membership diversity: Due to the complexity and interdependency of specialty pharmacy patient care, NASP membership encompasses organizations across the entire health care ecosystem including the nation's leading specialty pharmacies, manufacturers, group purchasing organizations, patient advocacy and assistance organizations, integrated delivery systems, health plans and PBMs, technology and data management vendors, law firms, protective packaging and logistics providers, wholesalers and distributors, practicing pharmacists, pharmacy technicians, nurses, students, and health care professionals.

Education: NASP provides an online education center that offers more than 75 accredited continuing specialty pharmacy education programs, hosts an annual conference featuring both clinical and business focused educational sessions offering continuing education credits.

Certification: NASP is the only organization that offers the Certified Specialty Pharmacist (CSP) credential, designed to validate professional expertise in specialty pharmacy practice.

The Specialty Pharmacy difference: In addition to dispensing medications to patients living with complex, life-altering, and often life-threatening medical conditions, specialty pharmacy also provides comprehensive and coordinated patient care support services and disease management programs. Specialty pharmacy serves as an extension of the prescriber's office, working to ease the treatment burden for patients, families, and caregivers as they work to manage complex, rare, progressive, or debilitating illnesses. These include cancer, hepatitis C, infectious disease, infertility, Crohn's disease, rheumatoid arthritis, psoriasis, HIV/AIDS, multiple sclerosis, cystic fibrosis, organ transplantation, human growth hormone deficiencies, hemophilia, and other bleeding disorders.

The focus on patient care: NASP is proud of its role in supporting its members to improve therapeutic outcomes and controlling health care costs, both for patients and for the overall health care system. NASP supports a free-market health care system in which all specialty pharmacies compete on the same fair and level playing field and believes Americans with serious health conditions should not face barriers to the care that they, their physicians, and their pharmacists determine is best for them. NASP is committed to working with all stakeholders and policymakers to ensure that all patients have access to the life-saving medications they need and the high-touch patient care support services they deserve from the pharmacy of their choosing.

Founding Members

The companies below provided their initial support and continue to be instrumental in supporting NASP's mission to promote and elevate the practice of specialty pharmacy. Thanks to their vision, commitment, and generosity, the specialty pharmacy industry now has a unified, national voice and representatives advocating on their behalf and on behalf of the patients we collectively serve.

Your willingness to share your time, energy, and talents is truly the key to our success.

We couldn't do what we do, without YOU!

BUILDING THE WORLD'S LEADING ONCOLOGY COMPANY

Innovation moves fast.

Access has to keep up.

A global oncology company, purpose-built and designed to deliver—faster, reliably, and at scale

BeOne Medicines is a global oncology company that was built to do something that has never been done before. From day one, we set out to defy the status quo and reimagine how innovative cancer therapies are discovered, developed, and delivered to the people who need them.

Our R&D approach is bold by design, built to scale, and driven by a singular mission: to discover and develop transformative therapies for patients with exceptional speed. From agile manufacturing to strategic partnerships, we are building the infrastructure and alliances to deliver transformative cancer therapies to more patients and their families around the world.

Because access isn't an aspiration, it's an imperative.
